

Pipe Organ for Sale

Reuter Opus 1402
Built in 1962
3-manuals, 47 ranks

This gracious, 3-manual instrument has become available from a church that sold its original building and relocated. It was designed with independent choruses in each division. Both the Swell and Choir divisions are enclosed. Pipes of the 16' Principal make up the façade display. The drawknob console is made of stained African mahogany and is on a moveable platform.

8	Gemshorn Celeste	61 pipes
4	Rohrflute	73 pipes
2 2/3	Nazard	61 pipes
8	Hautbois	85 pipes

Reuter Theater Organ

2 Manuals, 5 Ranks
blower not included

This organ was built in 1928 and installed in the El Morro Theatre in Gallup, New Mexico. It was later moved to the First Baptist Church in Los Cruces, New Mexico. In 1996, it became available and returned to Reuter. After storing it at our facility for a number of years, we completed some renovations on the instrument, and it is set up and playing in our assembly room.

All the original pipe work and chests are intact. The original orchestral bells and chimes have been releathered. The console has been restored using vintage Reuter keyboards to replace the originals, and Peterson solid-state components from our inventory have been used to upgrade the operating system.

The instrument is currently housed in an enclosure that is 10' 10" X 9' 11" and 13' 2" high (simply designed for the available space on our assembly room mezzanine) but could be laid out in any number of ways.
